MATT DOLAN

PROJECT MANAGER

Matt has over 15 years construction experience gained in New Zealand. Matt started his career on the tools, before taking on project management roles on small scale residential and commercial fitouts. Matt then retrained as a Quantity Surveyor and practiced as a commercial construction QS for a number of years to round out his construction management skills. As a Project Manager with Novasteel, Matt has the unique ability to drive projects from a programme, quality and financial perspective, which is vital in ensuring a great outcome for our clients. Matt is a highly valued member of the Novasteel team.

RESPONSIBILITIES

As Project Manager, Matt is responsible for the overall management of the project, with support from the Procurement and Commercial Management team. Matt manages key relationships with consultants, clients and site based construction teams. He will work closely with the client team to ensure the timely and efficient delivery of a high quality project, that is able to be celebrated by all involved.
