With over 30 years of management experience, Gavin understands what it takes to bring out the best in people. Working with our team, subcontractors, suppliers and clients, Gavin ensures our projects meet or exceed the teams expectations. Gavin has been part of the Novasteel for over 8 years, where he has successfully navigated a wide range of construction management challenges and opportunities.

A qualified engineer with experience across commercial construction and automotive manufacturing provide Gavin with a unique perspective on how best to deliver Novasteel projects.

RESPONSIBILITIES

As General Manager, Gavin is responsible for the overall management of the Novasteel team and for the successful delivery of each project. He will manage critical relationships with clients and their teams and provide the necessary support to the entire project team. Gavin is responsible for ensuring compliance with all Novasteel Health and Safety and Quality Control processes.
