E: murilo@novasteel.co.nz

A highly skilled and experienced construction procurement professional, Murilo has many years of experience within New Zealand and internationally. Strategic sourcing, developing relationships with suppliers and subcontractors, cost planning, feasibilities and budget maintenance are key strengths.

Experience with a range of commercial and agricultural construction projects has given Murilo a solid background and understanding of what it takes to successfully deliver a project.

RESPONSIBILITIES

As Procurement Manager, Murilo is responsible for procurement of all materials within timeframes and budget constraints, negotiation of supply agreements and coordination with site management to ensure a seamless process.

He will work closely with the project team to ensure timely and efficient procurement and deliveries and is therefore a key part of any team.
