BERJ PANOSSIAN

PROJECT MANAGER

Berj has 10 years construction experience gained in New Zealand, working on numerous commercial and industrial projects such as; service stations, food processing facilities, silos and cooling towers and cold stores. He started his career as a construction cadet, before taking on a project management role on turnkey commercial and industrial projects across Auckland. As a Project Manager with Novasteel, Berj has the unique ability to drive projects from a programme, quality and financial perspective, which is vital in ensuring a great outcome for the client. Berj is highly valued member of the Novasteel team.

RESPONSIBILITIES

As Project Manager, Berj is responsible for the overall management of the project, with support from the Procurement and Commercial Management team. Berj manages key relationships with consultants, clients and site based construction teams. He will work closely with the client team to ensure the timely and efficient delivery of a high quality project, that is able to be celebrated by all involved.
