KARL RUEDIGER

PROJECT MANAGER

Karl has over 15 years supervisory project engineering experience. He enjoys keeping up with new and innovative building solutions, solving technical challenges and the problem solving requirements that the project management role brings.

A trade certified fitter and turner with Mechanical and Plastics engineering qualifications and experience make Karl a key member of any team seeking to deliver a successful project.

Experience with large scale manufacturing and construction projects has given Karl a unique set of skills and experience ideally suited to delivering successful Novasteel projects.

RESPONSIBILITIES

As Project Manager, Karl is responsible for the overall management of the project, with support from the Procurement and Commercial Management team. Karl manages key relationships with Consultants, Clients and Site Based construction teams.

He will work closely with the client their team to ensure the timely and efficient delivery of a high quality project, that is able to be celebrated by all involved.
